Championship Hockey Games at Blairmore

Canadian Legion Juniors Defeat Calgary Falcons and Play B.C. Champions Tonight and Saturday

In one of the fastest games seen in the Pass, and conceded to be fully up to the standard of the matches of a few years ago, when interest in hockey was at its zenith, Blairmore defeated Calgary in the junior league series on Monday, who on the Wednesday previous had won by a score of 3-1 against Blairmore at Calgary.

Over a thousand people, including a large number from Coleman and neighboring towns, got plenty of thrills throughout the game, the first period, with Calgary playing a defensive game to try and hold their lead, resulting in no score. In the second period Blairmore notched two goals, which brought the crowd to their feet, when honors for the championship were even. The third period, the fastest of the game, saw both teams desperately trying to make the score which would decide the championship, and this was scored, besides another, which was disallowed owing to being scored from an off-side shot.

By winning this game, Blairmore will play the British Columbia champions tonight at Blairmore, Fernie team having won at the coast on Monday evening, and coming direct from Vancouver to play for the inter-provincial championship. Two games will be played, one tonight and one on Saturday, President Sanderson of the hockey association deciding that the games were to be played at Blairmore owing to their seating capacity being much greater than at Fernie. The winners of this series will travel to Regina to play against the champions of Saskatchewan, then the winners of the series there will go to Winnipeg, and the finals for the junior hockey championship of Western Canada will be played in Winnipeg, so that Blairmore has good chances of winning the pennant.

A special train will come down from Fernie this evening, and 400 seats have been asked for by the fans from that city. Doubtless there will be the largest crowd on record this season to witness the game, as interest is now at fever heat in the towns throughout the Crow's Nest Pass, with the Western end looking for Fernie to win, and the Alberta end strongly supporting the Blairmore boys.

Manager Scott of the Blairmore team is confident of his boys winning, though he is not taking any chances, and he states that Blairmore will make every effort to get as good a lead as possible on the opening game this evening.

Kemp, the goal tender of Blairmore, has been playing a remarkable game throughout the season, and Calgary sports writers, in writing up the game in Calgary last Saturday, state that had it not been for his splendid work in goal, Cal-

Southern Highways Being Gravelled

Gravelling of the Cardston-Waterloo motor road has been proceeding rapidly during the past few weeks and it is expected that this project will be completed within a short time. Nine hundred yards of gravel to the mile is being placed on the highway, making it a very serviceable road. The road between Cardston and Leavitt is practically completed as is also the section between the lakes and Mountain View on the west end. Considerable work has also been done on the gap between Leavitt and Mountain View.

Death of Aged Coleman Resident

Mrs. Margaret Davidson Passed Away on Saturday Last at Advanced Age

To live to the age of almost 83 years without an illness was the remarkable record of Mrs. Mary Margaret Davidson, who passed away in Coleman on Saturday, the funeral taking place on Sunday, the Rev. A. D. Currie, rector of St. Alban's, officiating. Deceased lived at Newcastle-on-Tyne, Eng., before coming to Canada, and is survived by two daughters, Mrs. John Marconi, of Coleman, and Mrs. Kerr, of Innisfail, Alta.

Coleman Fails to Lift Burns Cup

Messrs. Boulton and McBurney, leading Coleman curlers, invaded Pincher Creek on Tuesday with designs on that popular and well known hone of contention, the Burns trophy. All they had to do was heat Jack Kelly and Doc Gillespie. However, the two latter gentlemen, who won the trophy early last season and have since defended it successfully several times, were again victors, Gillespie winning from McBurney 13-10 while Kelly was trimming Boulton 16-10. The Pincher rinks were: J. Kelly (skip), A. H. Bell, R. Y. Laidlaw, J. P. Alexander; Dr. Gillespie (skip), Dr. Geering, S. A. Fraser, W. A. Foote—Pincher Creek Echo.

Nicholas' Spring Showing

With the approach of spring, the store of Chas. Nicholas is assuming a bright appearance as new goods are being displayed in keeping with the season. A fine display of millinery and ladies dresses is promised for this week end, next week, and attention is directed towards their advertisement in this issue.

Antrob's Sell Good Shoes

gery would have secured a greater lead.

Manager Scott of Blairmore attributes the defeat at Calgary to the side ice, it being 95 feet instead of 75 feet on Blairmore ice, with the result that Calgary's front line worked around the outside of Blairmore's defence.

Coleman Miner's Injuries Fatal

Frederick G. Scott Recently of Lacombe, Hurt While Working First Shift

As the result of an accident which occurred on Feb. 16, while he was employed in McGillivray mine, Frederick G. Scott died early Saturday morning of internal injuries. The deceased came here from Lacombe and was working his first shift in the mine when the accident occurred. It was thought at first that he would recover and even as late as Friday the patient was doing well.

The deceased was a member of Red Deer Lodge No. 12 A F & A M, and R A Chapter. Summit Lodge No. 80 of Coleman held a funeral service on Sunday evening and escorted the body to the C.P.R. station for forwarding to Lacombe. The late Mr. Scott, who was 34 years of age, is survived by his wife.

On Saturday afternoon a jury was empaneled by Coroner A. M. Morrison, when after viewing the body at Ferguson's undertaking establishment, the inquest was adjourned till 5 p.m. on Tuesday, at the town hall. The foreman of the jury was H. C. McBurney, and a verdict was recorded to the effect that death resulted from injuries received in the accident on Feb. 16. A rider was also added recommending that an ambulance car be placed in all mines in Alberta, to convey injured men from the spot where accidents occur to the mine entrance.

Boy Scout Association To Meet on Monday

The Boy Scouts Association of Coleman will hold a re-organization meeting in St. Alban's hall on Monday evening next at 8 o'clock. This meeting was to have been held last Monday but was cancelled through lack of attendance. All interested in the work of the Association should be there. The Scouts as a world-wide organization has proved of great benefit to thousands of boys, helping to develop them into worthy citizens, and for this reason alone the movement commands the support of the people generally.

St. Alban's Church

Every Wednesday through Lent, Evensong at 7.30 p.m.
Thursday, March 1, W.A. meet in Parish hall.

Friday, March 2, lantern slides in Parish hall at 8 p.m.

Sunday, March 4, Holy Communion at 11 a.m.

Sunday School at 2.30 p.m.

Confirmation class at 3.30 p.m.

If you have eye strain, you probably realize that everything is not as it should be. You may not know it is wrong, but that something is wrong, and many people continue to suffer for years in that way, and never learn that their eyes are the cause of the trouble. Our service will correct your eye strain—G.R. Powell, registered optometrist.

Mine Operators Wait on Premier

Ask Change in Law Dealing With Certification of Miners

Presenting an amendment to the mine act which reads, "No person shall be in charge of a working in any mine unless he is the holder of a certificate of competency as a coal miner," operators from nearly all the coal fields of Alberta called on Premier Brownlee Thursday morning. They presented a list of 14 amendments altogether, but the premier said that as a complete revision of the mines act is contemplated at the next session, he did not think it advisable to ask for numerous changes this year.

The operators agreed that they would press only for the change in the law regarding the certificates of miners. They held that the present clause which provides that "no person shall work at the working face in any mine unless he is the holder of a certificate of competency as a coal miner," works a hardship on the operators; that miners could only obtain experience at the working face under the supervision of competent men already holding a certificate, and that the act as at present shuts out employees from qualifying for a certificate.

The deputations included R. M. Young, Canmore; John Shanks, Nordegg; George Kellock and O. E. S. Whiteside, Coleman; L. Stockett, Calgary; J. E. Dunn, Edmonton; J. Thomas and T. O. Drumm, Drumheller; E. F. B. Johnson, Marcus Collieries.

Council Appoints Committees for 1928

Finance—G. Pattinson, J. Moores and W. Fraser.

Works and Property—W. Nelson, G. Pattinson, P. Smith.

Water and Light—Moore, Pattinson, Nelson.

License and Police—Rushon, Fraser and Nelson.

Relief—Fraser, Smith, Rushon.

By-laws—Smith, Pattinson and Moore.

Band—Pattinson, Moore, Smith.

Building—Moore, Pattinson.

The chief business of the meeting held on Monday evening was the taking of the oath of office by the new councillors, the re-appointment of Dr. Borlen as medical health officer, and notice of by-law by Councillor Pattinson for the appointment of secretary-treasurer for the year 1928. E. D. Battum of Calgary was re-appointed as auditor for the year.

Dance in Aid of Swimming Pool

In order to raise funds for the swimming pool a dance will be held in the K. of P. hall on Monday, March 5, at which the Alternatt orchestra will furnish the program. The public are cordially invited to attend. Admission, gents \$1.00; ladies 25c.

Antrob's Sell Good Shoes

Game Association To Import Pheasants

One thousand pheasants, and possibly twice this number, will be imported this year by the Calgary Fish and Game Protective Association and will be set out in selected districts to the south and south west of Calgary, it is announced by C. A. Haydon, president of the association. A number of experiments with this splendid game bird in the southern part of the province have proved very successful and an effort will be made to stock a considerable area adjacent to Calgary.

Steam Coal Mines Work Full Time

Railway Companies Now Going Ahead Stocking Up Requirements

That steam coal mines in the Crow's Nest Pass were now working to full capacity, was the statement made to The Herald on Friday by O. K. S. Whiteside, prominent operator, of Coleman, who was in the city on a business visit. The railway companies, he said, were now going ahead stocking up their spring and summer requirements and these orders would probably continue until the wheat rush began.

Mr. Whiteside mentioned that the daily output of the Crow's Nest Pass mines on the Alberta side alone was in the neighborhood of 10,000 tons a day. A very considerable quantity was also being mined on the B.C. side of the Pass.

Although steam coal operators were in the movement of domestic coal from Alberta to Ontario, Mr. Whiteside stated that from what he had heard there was a strong probability of the Federal government making it possible for the project to be carried out at an early date.—Calgary Herald.

Activities of Local Red Cross Society

Mrs. Sherring of Frank, Crow's Nest Pass Delegate Attended Convention

Returning last week from the annual convention of the provincial Red Cross Society, Mrs. A. Sherring is very enthusiastic on the progress of work for the coming year. The convention, held in the Palliser hotel, was attended by Lieut. Governor Egbert, Bishop Gray of Edmonton and other prominent people.

It is worthy of note that the Junior Red Cross raised \$14,935.44 during 1927, and this branch of the Society's activities is accomplishing splendid work in promoting the knowledge of hygiene in the schools.

To help in raising funds locally a dance is being arranged for March 16 in the Union Hall, Frank, at which Alternatt's orchestra will provide the music, to which the people of the district are invited. The admission for gents is \$1.00 and ladies 25c. Mrs. Sherring especially invites Coleman people to attend the dance and so help to make it a success.

Prized Letter From Duchess of York

Antrob's Shoe Store Receives Acknowledgement From Royal House for Toy Balloons Sent to Little Princess

As an example of courtesy which has always been an admirable trait of the British royal family, the following letter from the Duchess of York to Mr. and Mrs. Fred Antrob's of this town is very interesting. The letter was written by the private secretary of the Duchess in reply to a letter sent by Mrs. Antrob's stating that some toy balloons used in advertising their shoe store were being sent to the little two-year old princess, and asking for an acknowledgment. Here is the letter:

145 Piccadilly, W.I.

Feb. 9, 1928.

Mr. F. Antrob's, Coleman, Alberta.

Dear Sir:

I am desired by the Duchess of York to thank you for your letter of January 12. It is kind of you to think of the little Princess and send her some balloons, which, no doubt are on their way. Her Royal Highness regrets, however, that it is impossible to send you such a letter as that for which you ask, as there are certain reasons which make it undesirable that Princess Elizabeth, who is not yet two years old, should send a message for advertisement purposes.

Yours faithfully,
P. K. HODGSON
Private Secretary.

Notes by the Way

Duty is a power that rises with us in the morning and goes to rest with us at night. It is co-existence with the action of our intelligence. It is the shadow that cleaves to us. Go where we will—W. E. Gladstone.

An ungrateful man is like a hog under a tree eating acorns, but never looking up to see where they come from.—Timothy Dexter.

Courage consists, not in blindly overlooking danger, but in seeing it and conquering it.—Jean Paul Richter.

There is no fit search after truth which does not first of all begin to live the truth which it knows.—Horace Bushnell.

Our greatest failing is to think more of the faults of others than their good qualities. Life would be happier for all if they would think first of the good that is in others, for in so doing they will develop the better side of their own personality.

There evidently are many hockey fans in Coleman judging by the attendance at the Calgary-Blairmore game on Monday evening, when over 1,000 witnessed the final whereby Blairmore again became provincial champions.

For treating miners' ailments a special violet ray clinic has been established at Sherwood colliery, near Mansfield, Eng.

(Continued on Page Five)

Inter-Provincial Championship Play-Off Games
BLAIRMORE LEGION vs. FERNIE JUNIORS at BLAIRMORE
TO-NIGHT AND SATURDAY NIGHT AT 8.15. ADMISSION: Reserved Seats 75c, Rush Seats 50c

WOULD REDUCE THE NUMBER OF PORTS OF ENTRY

Ottawa.—A number of recommendations dealing with the re-organization of the Department of National Revenue are contained in the report of Messrs. Clarkson, Gordon and Dillworth, chartered accountants of Toronto, which was presented to the Hon. W. D. Etherington in the House of Commons recently. This firm acted under the authorization of the order-in-council of August 7, 1926, as auditors to the Royal customs commission.

The report says that from time to time the Minister of National Revenue has put into effect a number of improvements recommended by the investigators, and that these have added to the efficiency of the department.

One of the chief recommendations declared that "to utilize effectively such a body of competent appraisers there should be concentrating at about 100 ports the examination and appraisal of all importations on a commercial scale, which at present pass through some 700 ports. A large number of the present ports should be closed entirely."

It is shown in the report that there are 729 ports, out-ports and stations in Canada and that in 234 of these the expenditures for administration exceeded the revenue in the year 1926.

It is suggested that the passing of importations on a commercial scale should be taken out of the hands of all ports excepting a few of less than four persons except where for special and sufficient reasons this could not be practical.

Other recommendations are that a special investigation should be appointed to deal with suspected evasions of duties and taxes or other frauds; that moieties to informers be paid more promptly and in more liberal amounts, while those to officers be abolished, and that the commissioners of customs, excise and income tax, as a committee, be given power to demote or dismiss members of their staffs without approval of the minister or the order-in-council. It also is recommended that a board of appeal be established to protect employees against any possible misuse of such powers.

Supervision Of Rural Schools

Important Changes Advocated At Saskatchewan School Trustees Meeting

Saskatoon.—Supervision of rural schools and other important changes in the education system of Saskatchewan were advocated by C. E. Little, president, at the annual convention of the Saskatchewan School Trustees' Association, between 700 and 800 delegates were present.

"We must face the fact that in spite of the great improvements in the educational system of Saskatchewan and the efforts of the educational department, officials, inspectors, teachers and trustees, our rural schools are not yet in a general satisfactory condition," declared Mr. Little in his presidential address. "One of the great handicaps from which they suffer is the lack of adequate supervision."

Mr. Little said the services of an expert were required to undertake the supervision which he estimated would cost from \$100 to \$200 a school depending upon whether one or two municipalities were placed in charge of an expert. For such a small additional cost they could give country children an equal chance with city children, he added.

Estimating that 74,500 of the 205,000 children in Saskatchewan elementary schools required treatment for various defects, Mr. Little urged that the nursing staff should be increased immediately, so that it would be able to inspect all the public schools in the province annually.

Talking Dog Has Rival

Great Dane Converses With Reporter Of New York Paper

New York.—The New York Herald-Tribune says that New York has a talkative dog comparable to Princess Jacqueline, French bulldog, reported to be the sensation of the Eastern dog show in Boston.

Boulderwell, a Great Dane owned by Mrs. J. Stuart Tompkins, wife of a New York attorney, the paper states, conversed with reporter and demonstrated its ability to say "How do you do," "I want to go out," and a number of other phrases.

W. N. U. 1722

C.P.R. Traffic Chief Dead

C. E. E. Usher Had Been With Railway For 42 Years

Montreal.—C. E. E. Usher, general passenger traffic manager of the Canadian Pacific Railway, died suddenly at his residence in Westmount. He was 71 years of age.

Mr. Usher was born at Chrysler's farm, Chippewa, Ont., Dec. 28, 1857. He joined the C.P.R. on Nov. 1, 1885, as chief ticket clerk in the passenger department at Montreal.

His rise to executive office was rapid, culminating in his appointment as general passenger traffic manager of the company on Sept. 1, 1922, with jurisdiction over passenger and traffic matters covering rail and steamships on the Atlantic and Pacific and also gave him charge of the entire hotel chain of the company.

Mr. Usher originally intended to go in for a musical career but owing to force of circumstances entered railroad instead.

He joined the Canadian Pacific Railway when the trans-continental service was inaugurated and was therefore contemporary with the extension of that railway across the continent. He had seen it grow to a world-wide organization, stretching through the Dominion and encircling the globe.

China Hopes For Improvement

People Looking For Better Times During New Year

Canton.—Thankful that the "year of the rabbit" just closed is behind them, the people of China today are hoping for better times under the new year of the dragon now presiding over the current year.

The "year of the rabbit" ended in the midst of crippled domestic trade, curtailed shipments abroad and in general a dreary commercial outlook. Canton and South China suffered in the New Year hopeful but with grave commercial misgivings.

The new lunar year means much to China and her more than four hundred millions of people. In addition to being practically her only holiday of the year, it is the chief commercial setting day when all accounts of the dying year are "reckoned up and paid."

World Cataclysm Predicted

Date Of Commencement Set At May 29 This Year

Ottawa.—If the symbolism of the great pyramid of Egypt are reliable they foreshadow a great cataclysm to commence at midnight of May 29 this year, according to T. R. Ransome, Toronto, organizing secretary for the British Israel Federation of Canada.

Addressing a gathering of Ottawans, Mr. Ransome made it clear that he was uncertain just what form the cataclysm would take, "but if the prophecies of the Bible were indeed the true word of God, and current history was a guide" then he was afraid it was the "war to the end."

Wins Quebec Dog Derby

Emile St. Godard Beats Nearest Competitor By Two Minutes

Quebec.—Emile St. Godard, member of The Pas, Man., won the annual international dog derby here by defeating Leonard Sepplia in the third day's heat by 2 minutes and 33 seconds.

St. Godard's time for the 4-mile run was 3:30.07, while Sepplia was second in 3:41.40, and Earl Brydges, The Pas, Man., third in 3:42.50.

The total time for the races for the three ways was: 1, St. Godard, 11:14.17; 2, Sepplia, 11:17.30; 3, Brydges, 11:28.25.

Ready To Sail Earlier

Canadian Destroyers May Be Finished Before March 20

Ottawa.—The Canadian destroyers Vancouver and Champlain, which are being reconstructed at Portsmouth for service in Canadian waters, will probably be ready to sail earlier than March 20 as was originally planned.

This was declared by officials of the department of national defence. The destroyers, formerly the Torbay and the Toronado, are replacing the obsolete Patricia on the Pacific coast and the Patriot, Halifax.

Increase In Paper Exports

Ottawa.—Canada's total export of newspaper for the 12 months ending January 21, was \$124,168,000, as compared with \$115,013,128 for the corresponding previous 12 months. The returns were made public by the Dominion Bureau of statistics. The total exports of paper and manufactures of paper were \$130,570,320 for the last 12 months, and \$122,365,320 for the year before.

ANSWERS GIVEN TO QUESTIONS ON IMMIGRATION

Ottawa.—A number of questions dealing with immigration were answered in the House of Commons, their range extending from the admission of Asiatics to the cost of transportation from Europe to Canada.

It is shown that from 1921 to 1927 there were 787,408 immigrants arrived in Canada from Great Britain, the continent of Europe and the United States. Of these 361,834 came from the United Kingdom; 249,521 from the continent, and 176,053 from south of the international boundary. The cost to the country for bringing in those immigrants was \$7,204,986, of which over 50 per cent was spent in connection with British immigration.

The figures disclose that the banner year in immigration from the Old Country was that which closed on March 31, 1921, when 74,262 new comers came to Canada. In the fiscal year, ended March 31, 1927, the number of foreigners coming into the country from European continental parts was 71,673, a figure that exceeded by 370 the combined totals of British and American immigration during that period.

Since 1923, the year in which the system of assisted passage was adopted, to December 31, 1927, there were 61,267 new settlers brought in, at a cost of \$1,534,534.

The answers stated that provision was made under the Canadian Farm Loan Act of 1927 to assist Canadians desirous of settling on the vacant lands of the country.

In the year 1927 there were 94 Chinese admitted to Canada under permit, and of these 40 entered as actors and actresses; four were missionaries and twice as many were teachers. Thirty-five of the 94 had already left the country.

In the same year 463 Japanese entered Canada, distributed in 118 adult males, 277 adult females, and 88 children. The laboring class accounted for 154 of both sexes, while farmers totalled 118 both sexes.

Will Support Prohibition

Washington.—Declaring the United States has "deliberately undertaken a great social and economic experiment, noble in motive and far-reaching in purpose," Secretary Hoover, as a presidential candidate, pledged himself to support the prohibition amendment.

Husky Twice Saves Master's Life

"Mountie," leader of the Chateau Frontenac dog-team, has many friends, but none who watch his career with more interest than Sergeant William Grennon, of the Royal Canadian Mounted Police. The Sergeant, who is six-foot-three and the crack marksman of the force tells, with tears of pride in his eyes, how Mountie, whom he raised from a pup, saved his life on two occasions.

An early freeze in the North Country. The team with "Mountie" in the lead crossing Sturgeon Lake. Then the realization that the ice was cracking and bending and the knowledge that it was too thin to allow the sleigh and driver to stand still long enough to turn. There was no retreating, they must go on. "Mountie" waited for no word of command. He led the team on, on, at a breakneck speed across an expanse of water, in miles, with death facing them every step, and reached the opposite shore in safety.

Once again, the following year, the Sergeant claims that "Mountie" saved his life, when he cleared with one bound a cut in the ice, six feet wide caused by the swift current, the others following.

Over thousands of miles through the snow bound north, on missions of life and death, Mountie has accompanied Sergeant Grennon. When Mountie led five years ago to Quebec, the Sergeant was heard to say that he had lost his most faithful and his most beloved friend.

NEW CANADIAN PEER

Lord Strathcona and Mount Royal, new Canadian peer, who is a member of the royal commission on India reforms which was greeted by rioting on its arrival in Madras.

Testing Invention For Planes

Illinois Engineer Has Secured Patents For Gasoline Turbine Motor

Chicago.—Assured that three national including Canada will grant him patents, his gasoline turbine airplane motor, R. E. Laszley, engineer of Libertyville, Ill., is going forward with plans to test his invention on a trans-Atlantic flight. France and the United States already have recognized the patent.

Mr. Laszley said his engine will have a third greater cruising radius for the amount of fuel used than any existing airplane engine.

Lindbergh Homestead As Memorial

Washington.—A bill to authorize the purchase of the Lindbergh homestead at Little Falls, Minn., as a suitable memorial to the achievements of Col. Charles A. Lindbergh, through the sale of medals, has been introduced by Senator Shipstead, Farmer-Labor, Minnesota. A similar measure has been introduced in the house.

Federal Aid Cancelled

Contributions To Unemployment Relief In Provinces Was War-Time Measure

Ottawa.—Withdrawal of Federal contributions to the provinces for unemployment relief is announced in a letter from Premier King to Premier Bracken, of Manitoba, dated February 20.

The Prime Minister in part says that the policy of the government as set out at the Dominion-Provincial conference was "that such assistance as had been given from the Federal treasury had justification as a war-time measure to meet conditions arising out of the war and the re-establishment of returned men in civil life."

Mr. King continues:

"It was stated at the conference that the justification for Federal assistance in the matter of unemployment on this ground no longer exists. In our opinion other circumstances have not arisen which at the present time justify contributions from the Federal treasury to either the provinces or to municipalities as an assistance in dealing with the problem of unemployment."

The letter was in answer to inquiries from the Manitoba government as to what aid could be expected this year.

London Chimes Travel Nearly Around World

Re-Broadcast In Australia Also Heard In Buffalo, N.Y.

Buffalo, N.Y.—Chimes of Big Ben in London, re-broadcast by Station 2-FC in Sydney, Australia, went on the air over a radio station here.

The evening programme of the Australian station was broadcast by the local stations. After the usual musical programme, the Sydney station picked up the London broadcast and it was believed to be the first experiment of its kind in the history of radio, chimes in London were heard in Buffalo, after travelling nearly around the world. At one point in the broadcast the Sydney announcer called "Hello, America," and sent greetings from Australia to the people of Western New York.

Some difficulty was had with heavy atmospheric conditions, but after preliminary tests, signals were picked up very clearly.

New Jail For Manitoba

Will Be Located Where Farming Operations May Be Carried On

Winnipeg.—Manitoba is to have a new provincial jail and prisoners who are sent to it will have to work at farming operations, according to an announcement made by Hon. W. J. Major, Attorney-General, in the Legislature.

The site of the new institution to cost \$300,000, has not been selected yet, but the Attorney-General stated that it would be located at a place where farming operations could be carried on in combination with the ordinary prison routine.

CONDITIONS MORE FAVORABLE IN LIVESTOCK TRADE

Vancouver.—Conditions now in all branches of the livestock industry are more favorable than at any time in the last seven years, declared R. A. Wright, president of the Western Canada Livestock Union, at the opening session here, of the fifteenth annual convention of the organization. More than 100 delegates from the western provinces were in attendance at the three-day convention. All branches of the industry were represented, as well as the Dominion and Provincial Governments.

"It would appear as though our farmers and ranchers were in for a considerable period of short receipts and better prices," declared Mr. Wright. "Livestock prices compare more favorably with the purchasing power of non-agricultural products than at any time since 1920, which means the purchasing power of livestock during 1927 has recovered almost its pre-war relation to other industries."

Referring to a ten million dollar merger packing interest last year the president urged the necessity of an organization of producers to meet the competition of collective buying by selling collectively. During his term as head of the union, Mr. Wright said, he has become more and more convinced of the necessity of the organization to the livestock industry and it has become recognized by producers and federal authorities as the mouthpiece of livestock interests.

A BIG CUT IS MADE IN U. S. NAVAL PROGRAM

Washington.—Shaping Secretary Wilbur's recommendation for 71 new warships, the house naval committee decided to authorize the construction of 16 ships, one of them an aircraft carrier, and the remainder cruisers of the 10,000-ton class. It turned thumbs down on new submarines.

This action, taken after a protracted executive session, was described by Chairman Butler as practically unanimous and in line with the original United States proposal to the unsuccessful Geneva arms conference.

Wilbur had urged the committee to approve a building program of 25 cruisers, five aircraft carriers, nine destroyer leaders and 32 submarines, representing the program as having the backing of President Coolidge.

Butler estimated the committee's program would cost \$274,000,000 as compared with \$740,000,000 for the administration's plan, both figures excluding increase in aircraft and personnel for which the additional ships would call.

The committee, in refusing to provide for submarines, turned a deaf ear not only to the naval secretary but also to an emphatic protest by one of its own members, Representative McClintick, Democrat, Oklahoma.

The committee provided that the 15 cruisers should be started within three years and completed within five; and that the aircraft carrier be started within two years.

The committee also adopted a provision that "in the event of an agreement for further limitation of naval armaments by international conference to which the United States is a signatory power, the President hereby authorized and empowered to suspend in whole or part any of the naval construction authorized under this act."

Established New Air Records

British Aviator Reaches Australia From England In Fifteen Days

London.—Bert Hinkler, British aviator who arrived in Australia Feb. 22, is acclaimed in London as having performed one of the most remarkable feats of flying afloat, a feat which has yet been accomplished. Claims are made that the 15-day flight established five new air records, being the fastest flight between England and Australia; the longest light plane flight ever made; the longest solo flight in any kind of an aeroplane; the fastest journey between England and India; and the first non-stop flight between London and Rome.

It developed that Hinkler was powered by about \$10,000 that he would have been if he had completed arrangements for a policy with Lloyd's which he previously was stated to have taken out. The underwriters said that Hinkler had arranged for a policy of about £2,000 amounting to Australia within 16 days, but for some reason left without completing the negotiations.

The Daily Mail said that the real object of Bert Hinkler's flight to Australia was to test a new undercarriage. This the British flyer invented himself and to it he attributed his success in his present flight.

The plane he uses is fitted with folding wings and an undercarriage which swings back when the wings are folded, enabling the flyer to house the machine in a garage and making it easy for one man to handle. Hinkler sent a message to London saying he never had the least assistance in moving the machine since he started.

Auto Racer Near Death

Had Miraculous Escape In Attempt To Set New Speed Record

Daytona Beach, Fla.—Frank Lockhart, internationally known race driver of Indianapolis, narrowly escaped instant death when he lost control of his powerful Stutz Blackhawk speedster during an attempt to set a new world's automobile speed record and hurtled with it into the surf while travelling at 225 miles an hour. A superficial examination revealed no obviously serious injuries.

The 25-year-old racer suffered a severe shock but otherwise was not seriously hurt. This was the pronouncement of physicians at the hospital to which he was taken. A complete examination, the doctors said, showed no broken bones, no internal injuries, and that aside from a few lacerations on his face, Lockhart was suffering principally from shock.

THURSDAY, MARCH 1, 1928

Credit to Blairmore

Blairmore hockey players and their supporters are deserving of credit for their achievements of the season, in winning the provincial championship in the junior league. It makes Coleman hockey fans envious of the neighboring town, and has made many ask during the past week: "Why can't Coleman get on the hockey map again?" The answer is that it can. The material is here, and the boys are just as anxious to develop a team as any bunch of would-be players in the province. What is needed is leadership and encouragement. There are sufficient people here interested in hockey to help establish a junior team, and with the teams already organized in Blairmore, Hillcrest and Bellevue, some very interesting league games could be played and hockey interest re-created in this town, which since the departure of the Selkirk players in the semi-professional era of hockey in the Pass, has been at a low ebb in Coleman, with the result that what good players Coleman had have been eagerly picked up by other towns. It is hoped that steps will be taken in good time prior to the opening of the season next winter to have Coleman boys re-organized and in shape to again enter the provincial competitions.

Who Am I?

I am more powerful than the combined armies of the world; I am more deadly than bullets and I have wrecked more homes than the mightiest of siege guns; I steal annually over \$300,000,000 each year; I spare no one, and find my victims among the rich and poor alike, the young and old, the strong and weak; widows and orphans know me; I massacre thousands upon thousands of wage earners in a year; I lurk in unseen places, and do most of my work silently. You are warned against me, but you head me not; I am relentless. I am everywhere; in the home, on the street, in the factory, at railroad crossings, and on the sea; I bring sickness, degradation and death, and yet few seek to avoid me; I destroy, crush, and maim, I give nothing, but take all. I am your worst enemy. I am carelessness. —Cranbrook Courier.

In a dispatch from the French capital the United Press tells of a flight by airplane of a trained horse from Paris to London. The first impulse is to wonder at the daring and novelty of this exploit; to raise one's hands and exclaim, "What will they be doing next!" And yet as one reaches back in memory over the years to nursery days, the feat of this modern Pegasus is not so unusual after all. "It's old stuff," said the cow that jumped over the moon.

Here and There

Another barometer of the state of Western Canada's agricultural progress is the sale of school lands in the Prairie Provinces which in 1927 were the best on record. In all 450,408 acres were disposed of for a total of \$8,983,267, representing an average of \$19.70 per acre. The lowest price obtained was \$7 per acre and the highest \$73.

Appointment was announced recently of R. F. Angus to be assistant superintendent of the C.P.R. Montreal Terminal. Mr. Angus, who joined the Canadian Pacific Railway as a clerk in 1919, is the grandson of R. B. Angus, one of the creators of the system, and nephew of Sir Vincent Meredith, chairman of the Bank of Montreal.

Ten-year-old John Wyllie Barbour travelled recently alone from his home in Los Angeles to his father in Glasgow, a distance of about seven thousand miles, in care of C.P.R. train and boat officials from Chicago on. John thought the climate here was little different to California and wore no overcoat or had left it packed in his trunk, but he changed his mind at Montreal where he struck sub-zero weather. He arrived safe and sound, and will come back in the spring.

A paradise for the outside camper will be ready next summer when the government finishes the new camp ground in the Rocky Mountains Park within half a mile of Banff, on Tunnel Mountain. The camp, which on its old site last July accommodated 11,533 persons, is specially popular among prairie farmers between seeding time and harvest. Charge is only a dollar for a party for three weeks, and running water, garbage removal, dinner shelters, electric light and even pay telephones are provided for campers.

Around ten thousand snowshoers and their friends will visit Montreal on the occasion of the 20th anniversary of the founding of the Canadian Snowshoers' Association to be held in Montreal February 3-6. The convention is international in scope since it takes in the American Snowshoers' Association with over 1,500 members in the states of New Hampshire and Massachusetts, while there are also representatives from the Manitoba Snowshoers' Association and local bodies from all over the province of Quebec.

Making his second visit to Canada in 44 years, Seymour Hicks, noted British actor, with his wife, the equally well-known English stage favorite, Ellaline Terriss, and their daughter Betty, with a company of 26, arrived at Halifax this morning, after a week's tour, and three days at Saint John as the opening phase of a four months' tour which will embrace the whole Dominion to Victoria and back. Mr. Hicks travelled C.P.R. and will conclude his tour May 6.

Antrobus' Sell Good Shoes**The Launch of "The Duchess of Bedford".**

No. 1—Leaving the ship after a thorough inspection. No. 2—Premier Baldwin and his wife about to press the release button.

In the presence of a monster crowd which thronged the great Glasgow wharves of John Brown and Co., the "Duchess of Bedford," 21,500 gross tons was launched recently by Mrs. Stanley Baldwin, wife of the Prime Minister. The vessel is one of the four "Duchess" class of steamers under construction for the Canadian Pacific Railway Transatlantic route.

At the launching of the new ship speeches were made by the Prime Minister, Lord Abernethy, Chairman of John Brown and Company, Sir George McLaren Brown, Euro-

pean General Manager of the C.P.R., Captain J. Gillies Manager of the C.P.R. S.S. and Sir Thomas Bell, Managing Director of the Clydebank Yard.

Premier Baldwin recalled his recent visit to Canada and spoke of this country's wonderful possibilities for a marvellous future. "I am quite confident," he said, "that whatever vision and imagination can do for the Empire at large will be done by the Canadian Pacific Railway."

After cutting the cord from which a bottle of champagne was

suspended, Mrs. Baldwin, before touching the button, which was to be the means of the vessel being released, said: "I name you Duchess of Bedford." May God protect and prosper you. May he preserve and bless all those that go forth with you into the known and unknown."

And then, to the accompaniment of tremendous cheering from the large gathering of spectators, the massive structure began to move from the stocks, and gathering impetus as she went, took the water gracefully.

Notes by the Way

(Continued from Page One)

How often during the winter has the wish been expressed that Coleman had a good junior hockey team. The way to make wishes into realities is by action.

With so many counter attractions in championship hockey it looks as if the proposed game between the Calgary Hollies and Coleman Shamrocks is going to be passed over this season.

It is proposed to limit addresses in the provincial legislature to forty minutes, following the precedent of the Federal House. This will save a great deal of time wasted on non-essentials, besides expense involved in printing columns and columns in Hansard which nobody reads except those who spent the time in making the addresses. Which reminds us of at least one member in a neighboring province who usually had his address made up for him by the Hansard reporter.

G. G. Coote, M. P., in renewing his subscription to The Journal, writing from Ottawa, sends along his best wishes. To which we reply, "Thanks!" There are quite a number of others from whom we would be pleased to hear, with the same material evidence of good wishes.

Mary Pickford, "Our Mary," of moving picture fame, is to write a series of six articles on motion pictures—past, present, future—which will appear in The Christian Science Monitor. In announcing the series, the Monitor states that because of her desire to add to the sum of happiness in the world, she steadily has sought to send people out of the theatre in a more courageous as well as a cheerier mood than they went in. She explains her aim as an effort to renew and strengthen one's faith in the good intentions of the great majority of people.

Why Lindbergh

Word comes from Ottawa that the new flying field being established at Ottawa is to be called "Lindbergh Field." We wonder why?

Lindbergh is undoubtedly a great aviator, he has pierced the unknown clouds between the shores of Europe and America, he has established records for long-distance flying, he has proved that he has the nerve of a hero, but, after all, why should we seek to honor such a hero of a foreign country by naming the first of our flying fields after him when we have Native Sons who placed their names imperishable among the heroes of the Great War.

Canada had three Native Sons, who, in the greatest struggle in the world's history, fought for Canada and by their wonderful deeds of heroism earned the highest honors ever given to any hero. When military flying fields are to be established in Canada, no name that they might bear, would be more appropriate or carry more greater meanings than that of Barker, Brown or Bishop Field.

The Native Sons of Canada register their strenuous objections to the naming of these great military aviation fields after celebrities of other countries before the heroes of our own countries have been like honored.—The Beaver, Toronto.

Prize-winners last Saturday at the Rebekeah whist drive were Mrs. Campbell, Bellevue, and T. Bowen, first; Miss Burrall and J. Wilson, floating prizes; J. Rodgers and Mrs. McGillivray, consolation.

Maintain the Quality of Alberta's Crops

BETTER SEED MEANS Better Yields—Better Grades—Better Prices

A special committee appointed by the Minister of Agriculture, with the co-operation of numerous organizations in the province, is urging the use this spring by farmers throughout the province of

High Quality, Clean, Treated, Seed Grain,

in order to reduce the heavy annual losses sustained by sowing inferior seed. Farmers can co-operate by:

1. Using registered seed wherever available.
2. Using at least high quality commercial seed.
3. Having seed tested for germination and purity.
4. Treating seed for smut.
5. Thoroughly cleaning all grain intended for seed.
6. Seeding only varieties of recognized quality and varieties suitable to the district.

Good seed will be in demand this spring. Secure your requirements early—before the supply is exhausted.

U.F.A. Locals, Boards of Trade, The Wheat Pool, Banks, Commercial Grain Firms, The Press, and many other organizations are working in co-operation with a

BETTER SEED COMMITTEE

consisting of representatives of the Provincial Department of Agriculture, the Dominion Seed Branch, the Canadian Seed Growers' Association, the Alberta Seed Growers' Association, the C.P.R. Agricultural Department and the University of Alberta.

D. A. McCANNEL, Provincial Publicity Commissioner, Edmonton, Secretary.

"All these women agree with me—"

Western Canadian Housewives are all enthusiastic about Spillers "Bake-Rite" Flour

"I have given 'BAKE-RITE' flour a fair trial," says a housewife at Friedenthal, Alberta.

"It made lovely white bread, exceptionally fine textured, fine flavored, rises good and is very easy to handle. It also makes a lovely baking powder biscuit."

WORLD HAPPENINGS BRIEFLY TOLD

Russia has filed with the League of Nations, a proposal for the abolition of all armaments, in line with the suggestion she made at the December League disarmament meeting.

The Royal Society of Canada will hold its annual meeting in Winnipeg, May 23-26. It was announced by President Prof. A. H. R. Bulmer. This is the first time the society has convened west of the Great Lakes.

Herbert Swanson, 52, pioneer farmer, four miles north of Weyburn, Sask., was instantly killed about half a mile from the town when a slight load of wheat tipped over him and smothered him.

The complete stamping out of leprosy within the next decade is predicted in the annual report of the British Leprosy Relief Association, by means of a treatment with oil extracted from the dried fruit of the hydnocarpus tree.

Failure to meet the right man is the chief cause of spinsterhood among educated women, says Dr. Katherine Dement Davis, for ten years secretary of the New York bureau of social hygiene. She has just completed a survey of the situation.

Unemployed insurance, national in scope, is recommended in a report submitted to the provincial legislature by the Seasonal Unemployment Commission, headed by Dr. R. W. Murchio, of the Manitoba Agricultural College.

Attempts of the tri-motored Zenith aeroplane Albatross to create a new endurance world flight record was unsuccessful. The machine, piloted by A. Peterson and C. F. Rothwell, was forced down at the end of 26 hours owing to motor trouble.

The following appointments in the Royal Canadian Naval Services have been approved, it was announced by the department of national defence: E. P. Ghaiver, Edmonton, confirmed in the rank of sub-lieutenant, and G. A. Agnew, Saskatoon, confirmed in the rank of sub-lieutenant.

WHY TORTURE THE LITTLE ONES

Mothers, do you think it fair to torture your little ones by forcing them to take ill-tasting oils when they need a laxative medicine? Don't you find that the child's dread of these medicines often do more harm than good?

Baby's Own Tablets are the modern substitute for these nauseous doses. They are the very medicine the child requires and are so pleasant to taste that they are as easy to administer as a glass of water. They are the perfect remedy for all the minor ailments of little ones, being absolutely guaranteed free from injurious drugs.

Baby's Own Tablets accomplish all that castor oil and other bad-tasting remedies can do. In fact they accomplish more as they do not leave the child exhausted from its struggle against taking medicine. They relieve teething pains, banish indigestion and constipation, break up colds and simple fevers and promote healthful, refreshing sleep. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Andean Indians have swollen faces from the habit of chewing coca leaves.

RETAIN YOUR HAIR.

Minard's Liment stimulates growth of hair. Keeps it glossy and kills dandruff.

SUNDAY SCHOOL LESSON MARCH 4

JESUS AND THE TWELVE

Golden Text: "Go ye into all the world, and preach the gospel to the whole creation."—Mark 16:15.
Lesson: Mark 1:16-20; 2:13, 14; 3:15-19; 6:7-13, 30.
Devotional Reading: Romans 12:1-8.

Explanations and Comments

I. The Choice Of The Twelve, 3:13, 14.—One day Jesus went up the mountain to pray; he continued there all night in prayer. Luke tells us. Then as companions for himself and as messengers to the people he chose from among all his followers a little company of twelve men. "The number is significant and symbolical, a clear allusion to the tribes of a new Israel. And by that choice of twelve Christ did two things: (1) He made stupendous claim for Himself. Every Jew knew in a moment what the choice of twelve implied. It implied that Jesus was the promised and long expected Messiah. It meant that he was the fulfillment of ancient prophecy. And (2) it provided the apostles themselves with a constant stimulus to devotion and support of faith. It carried their minds back to the promises."—J. D. Jones.

They were ordinary men, these twelve, men from the ordinary ranks of life. Four of them were fishermen, one was a tax-collector. It was the power of the gospel that it built up its mission on the lives of ordinary men. G. K. Chesterton says: "It took ordinary men and made of them apostles, missionaries, evangelists, martyrs."

"Jesus found twelve ordinary men and discovered extraordinary capacity in them. They had had little opportunity. He became their opportunity. They did not have a great past. He saw that they could have a great future. He judged them by the spot where the Infinite touched them. He lived with them. He talked with them, and then He gave them something to do. He knew that only when listening is turning into action does it become character. He made them heralds of the Kingdom, and they grew in stature even as they announced its coming."—Lynn H. Hough.

No Economic Value

Report Against Gland Treatment Of Livestock Is Given

A committee of experts appointed by the board of agriculture, of London, Eng., has issued an adverse report on Dr. Serge Voronoff's gland treatment of livestock. The report admits that the claim is possibly justified, that the effect of the treatment was rejuvenation of aged and decrepit male sheep and similar animals, but considers the evidence was not based on critical experimentation, and that, therefore, the data given fails to warrant an estimate of economic value.

One-fifth of the United States is covered by forests.

Women Of S. A. Want Franchise

A bill providing for the extension of the franchise to women in South Africa has passed the committee stage in the house of assembly, despite strenuous opposition from the Nationalist party, led by Premier J. B. M. Hertzog. The premier takes the ground that the question as to rights of the natives should be settled first. The Women's Enfranchisement Bill limits the granting of the vote to white women.

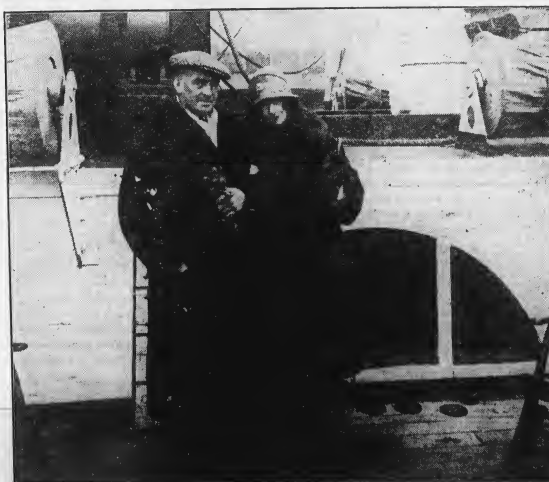

"It doesn't matter; I can come back," he said. "There's probably a train that comes back."
"I'm sorry!" said Icky. "I've made you miss your train!"

Made Fatal Voyage

Six Japs Are Suffocated In Hold Of Ship In Attempt To Enter U.S.

The bodies of six Japanese who attempted to smuggle themselves into the United States were found in the hold of the Tasiko Maru, which reached Tokyo from Seattle, Washington. The ship's cook confessed to hiding them in the hold on December 20 when the Tasiko Maru sailed for Seattle. From brief notes the men left it was believed they suffocated before the ship left Yokohama after which the cook became frightened and kept their death secret until the ship returned to Japan.

EXPERT MOVERS

Sir John and Lady Martin-Harvey, famous English players of Sabatin's "Scaramouche," who with their company of 25 actors spent only three hours entraining at Halifax from the Cunarder Antonia for their Canadian tour, with hundreds of pounds of dresses, disguises, guns, and what-not to be piled in two 65-foot box cars. No fuss no time lost. A lesson to householders who move in May.

WRIGLEYS
The cool, comforting flavor of WRIGLEY'S Spearmint is a lasting pleasure. It cleanses the mouth after eating—gives a clean taste and sweet breath. It is refreshing and digestion aiding.

Porcupine Quills Cause Death

Porcupine quills indirectly caused the death in Hazelton, B.C., of Ernest Loring, a former government telegraph lineman. The quills, entering his flesh some years ago, worked through his body and eventually pierced one of his lungs. An illness developed that kept him a semi-invalid for a number of years.

There are 38,000 passenger car dealers in the United States.

CHAPTER XIX—Continued

The Englishman stretched out his arms dramatically. His voice quivered like a violin string. "The British Empire is my country," he said; "I was born beneath the British flag, and so were my people, my ancestors back. I love it. The British Empire is in trouble and has called. I do not reason, I go. It's like your mother calling—would you wait to question if your mother called? If you know your mother was attacked by a bully would you hang back to see first if she had been to blame in any way—would you? My mother couldn't be wrong—not to me. That's what I mean."

Helmi was coming in from the kitchen with the desert on her big tray. She paused, arrested by the strange voice speaking with such terrible earnestness.

Bill Larsen had not stopped eating. Empires might rise or fall, but Bill believed in getting his "vittles" while they were hot. "Well no," he said, "I can't say I feel that way toward any country. It's a case of show me—I'm from Missouri, first, last and all the time."

Helmi watched the Englishman's face. He was staring hopelessly at the complacent big giant before her, serenely buttered a slice of bread on his broad palm as he spoke.

"I ain't so fussy over your old British Empire, anyway," added Bill. "I don't know but I'd just as soon see Germany win."

Arthur Warner, walked over to where Bill sat. His face was white and his eyes very dark. Helmi knew just what was going to happen.

"You cannot insult my country in my presence," he said quietly, and slapped the Swede's face with his open hand.

With a hoarse oath Bill sprang from the table.

Helmi screamed and darted forward, but the Swede's closed fist had already landed with smashing force on the Englishman's face, sending him reeling to the floor.

It was Helmi who was first beside him. "Oh, you big stiff, Bill Larsen," she cried indignantly, "he only gave you a little slap, but you smash at him like a hammer. You're a big bum, Bill Larsen, that's all you're! Maybe you've killed this man."

A Blessing to People of Advanced Years

Gin Pills relieve sufferers from kidney and bladder trouble

"I wonder if you really know what a blessing Gin Pills are to people of advanced years. I am 72 years of age, and suffered for a considerable time with kidney and bladder trouble. My rest was broken through having to get up in the night three and four times. Later I suffered with pains in the bladder, say my son, who had used Gin Pills for pains in the back and lameness, bought me a box. Before I had finished the box and relief of the pains in my bladder and had to get up less frequently. At my age I can scarcely expect to be permanently free from troubles of this kind, but if Gin Pills will give others the relief they have given me, they will be a blessing indeed."

(Name on request)

Prompt and lasting relief has been found in Gin Pills by thousands of people of advanced years who have had kidney or bladder trouble. If even slightly troubled in this way, get a box today at your druggist's—See: National Drug & Chemical Company, Ltd., Canada, Limited, Toronto, Canada.

Has Many Underground Rooms

250,000 In London County Have Cellars At Street Level

A recent census in one London borough alone reveals the existence of 7,000 basement rooms, of which 1,500 have cellars at street level and are death-traps, therefore, it floods come. It is estimated that there are 250,000 basement rooms in the County of London.

Of course, not all are used as sleeping apartments, but the majority are habitations for day use and are let to people who cannot yet find other homes. One can scarcely call this condition of things "sanitary." It is an unwholesome legacy of the war, and borough authorities, in sheer mercy, are compelled to turn a blind eye to the law until arrears of building, particularly of workmen's dwellings, have been wiped out. They cannot turn the people into the street.

Why is Red Rose Tea so fresh and flavorful?
The answer is that it is a blend of the choicest, juiciest leaves, picked when only ten days old—and sold by your grocer in clean, bright aluminum. No tea can be expected to retain its richness and strength unless packed in this modern metal container—the only package worthy of Red Rose quality.

And Old Sin are hand in glove, and no one can tell them anything. He says it's her duty to care for a soldier who is going out to die for all of us. Well, he don't need to die for me—I'm an American citizen, and I guess Old Glory will always protect me. I wonder what Jack Doran would say if he came home right now? If I know men, and I certainly should, a thing like this will take a lot of explaining. Poor Mr. McMann would have shot any man whom he found in his house like this. He was so impulsive where I was concerned. He didn't even like to have me left alone with the ice-man. I told him it was nonsense, but nothing could change him!

But Helmi and her guest were not concerned over public opinion. Strangely enough, neither of them had thought about it. The doctor from Bannerman had set the broken arm and advised him to lie still until the dizziness in his head had gone. The time passed pleasantly for Helmi. She was glad to have someone to care for, and Mr. English, as she called him, was so grateful. When he tried to pay her, Helmi firmly refused to accept anything. "You are a good man," she said, "leaving everything to go to fight for us. I am glad to help you. I wish I could do more."

It came to the last day, and Arthur Warner was sitting in the room, half watching Helmi as she packed his valise. She had taken out his things, washed his shirts and socks, mended them, and pressed his clothes. "By Jove, Helmi!" he said in admiration, "you are a born nurse, so quiet and capable. They are calling for nurses over there—can't you come along? I have lots of friends there who would be glad to have you. You are too smart a girl to be just a waitress."

Helmi held up a little garment which she had been making, and quite frankly told him it was impossible for her to do it.

The Englishman apologized humbly. "Oh, no," said Helmi. "It's all right. I do not mind telling you. No one here knows yet, but I am not about it. I am glad, I am only about Jack being away."

"I love what you said about my mother," said Helmi after an interval of silence. "You would fight for me even if she were wrong. No, she couldn't be wrong to you. That is a lovely thing. Do all men feel like that? I would like to have some who would feel like that for me."

"I think all decent men do feel that way," Warner said simply. (To Be Continued.)

Trail Riding In The Rockies

There is no place in the Canadian Rockies where trail riding is more enjoyable than in Waterton. Located in the heart of the Rockies, over 150 miles of trails, broad, well-made and so safe that not even the most timorous may feel alarm, are open to the visitor. Nearly a score of camps can be arranged from the town site of Waterton Park.

Dismal Patient: "Yes, doctor, my head is in a lump of lead, my neck is as stiff as a drappling, my chest like a furnace, and my muscles contract like bands of iron."

Doctor: "I'm not sure you shouldn't have gone to a hardware dealer."

ECZEMA ITCHED AND BURNED On Arms and Legs Six Years. Cuticura Heals.

"When I was a small boy eczema broke out on my arms and legs in small pimples. As I grew older the eczema became worse and very red, and my clothing aggravated it. It itched and burned so that many nights I could not sleep. The trouble continued for six years. I was told by a friend to use Cuticura Ointment and a box of Cuticura Ointment which he had sent me. I found great relief after using it for a few days. I used Cuticura Ointment and Cuticura Soap for six weeks. My arms and legs were healed. I am now free from the trouble. I am very grateful to Cuticura for its healing power. I am now free from the trouble. I am very grateful to Cuticura for its healing power. I am now free from the trouble. I am very grateful to Cuticura for its healing power."

C.P.R. Has Big Program

Will Employ Thousands Of Men and Spend Millions of Dollars On New Work In West

Work for thousands of men in Western Canada, and payrolls running into millions of dollars are indicated in the western building and expansion program of the Canadian Pacific Railway for the 1928 season. The details of the program were announced by D. C. Coleman, vice-president of western lines.

Tenders are already out for some of the work and operations will be pushed to the utmost as soon as spring opens up.

In Saskatchewan new stations will be erected at McMahon, Armley, Sylvania, Laver, Neilburg, Crane Valley, Tuberosa, Rockglen, Corbach, Fox Valley and Carmichael.

At Quenstown and Heberts in Alberta, new stations will be erected, the program states. A number of stations will be erected at different points in Manitoba. The capacity of the Weston freight car shops near Winnipeg are to be doubled and the locomotive shops enlarged.

At the town of Hardisty, Wilkie and Goudie, in Saskatchewan, new cooling plants will be built and the same construction will occur at Vulcan, Alta., and at Crow's Nest, Nelson and Tadouac in British Columbia. Additional work on the Pacific terminal will be extended, additional trackage will be built at Ogden, Calgary and Winnipeg and at Vancouver new tracks will be built to serve the company's pier and also to serve the grain elevator to be constructed near the Second Narrows bridge.

A very extensive program of bridge replacements will be undertaken and approximately 250 miles of 100 pound steel will be placed in the main track west of Swift Current.

RHEUMATIC PEOPLE

CAN OBTAIN RELIEF

By Enriching Their Blood With Dr. Williams' Pink Pills

Rheumatism is a disorder of the blood. It attacks people when the blood is thin and impure, thus setting up inflammation of the muscles and joints. Wet or cold weather may start the attack, but it is not the cause. The cause is in the blood. The appearance of swelling and soreness may be the pain, but do not reach the cause and the pains are not cured. It is an equalizer of the most painful trouble you must treat through the blood and for this purpose a little of an equalizer of the blood is Dr. Williams' Pink Pills, which from first to last actually make new, rich blood, drive the rheumatic poisons from the system. Mr. Henry E. Amiro, Lower East Public, N.S., tells what these pills did for him. He says: "I had an attack of acute rheumatism so bad that I could not walk. I was in bed for three weeks. I was under the care of a doctor but did not improve much. Then I read of a similar case in a newspaper. I decided to try Dr. Williams' Pink Pills. By the time I had used three boxes, I was able to get up. I was sure they were helping me. I took altogether about a dozen boxes. I was entirely relieved of my trouble. I am able to walk four miles to my work, chop wood all day, and then go home to bed. To anyone suffering from rheumatism I can strongly recommend Dr. Williams' Pink Pills. You get these pills through any medicine dealer or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont."

Heavy Livestock Shipments
Livestock handled during the year 1927 at Lethbridge at the yards was double the total of 1926. Hogs showed a 50 per cent. increase due to heavy shipments to the United States coast markets, and horses doubled in number due to shipments to Russia and a keen demand in Eastern Canada. The sheep run was exceptionally heavy.

Shipbuilding In Canada
A total of 393 ships were built in Canada during 1926, according to a report of the Department of Marine and Fisheries. These vessels had an aggregate gross tonnage of 45,638 tons, a net tonnage of 37,608. British Columbia led in the shipbuilding with 253 vessels for her credit.

Minard's Liment kills warts.

Minard's Liment kills warts. Clerk—"You say it's not ink in this bottle? Why, certainly it's ink."

Shopper—"Well, it says right here on the label 'Minard's Liment' and 'Blank & Blank Company, Not Inc.'"

Protect the child from the ravages of worms by using Mother Graves' Worm Expeller. It is a standard remedy, and years of use have enhanced its reputation.

Pierre Charles L'Enfant, a French engineer, planned the layout of the city of Washington in 1791.

Success is merely the matter of doing the right thing at the right time.

ASPIRIN

To break a cold harmlessly and in a hurry try an Aspirin tablet. And for headache. The action of Aspirin is very efficient, too, in cases of neuralgia, neuritis, even rheumatism and lumbago! And there's no after effect; doctors give Aspirin to children—often infants. Whenever there's pain, think of Aspirin. The genuine Aspirin has Bayer on the box and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark registered in Canada indicating Bayer Manufacture. While it is well known that Aspirin marks Bayer Manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

More than 65 per cent. of the passengers who cross the Atlantic to see Europe are women, many of them elderly. Seventy per cent. of the passengers on cruises are married couples.

Little Helps For This Week

"Be not hasty in thy spirit to be angry; for anger resteth in the bosom of fools."—Ecclesi. vii. 9.

As though an ill-dashed roof The peeling rains descend, So an unkindly mind The storm passions rend. As well-datched roof dety the rain, So passions crash and dash against The thoughtful mind in vain.

The Dhammapadam. Like those who burn their houses and themselves within them, anger makes all things within full of confusion, smoke, and noise; so that the soul can neither see nor hear anything that might relieve it. Wherefore, sooner will an empty ship in a storm at sea admit of a governor from without, than a man tossed with anger and rage, listen to the advice of another, unless he have his own reason first prepared to entertain it.—Plutarch.

Fish bones are being turned into ornaments for women's hats by an English firm.

Bubonic plague killed off one-fourth of the world's population in 1348.

Prince Owns Oyster Beds

Leases Ground In Duchy Of Cornwall To Company

I wonder how many people know that among the many varied possessions of the Prince of Wales are flourishing oyster beds in the Duchy of Cornwall. The Prince does not breed them himself, but leases 400 acres of ground at Port Navas to a company and allows them to breed oysters. The Prince and his family are not allowed to eat oysters. The Prince's oyster beds are situated at Helford. Although he is not a great oyster-eater, himself, H.R.H. takes such an interest in an industry which gives employment to many of his King tenants that I hear he has converted the King not only to having a regular weekly supply sent to Buckingham Palace, but to having no others on the Royal table.

Another Aid To Aviation

Radio Signals Guide Pilots Through Fog and Storm

One more obstacle safe aviation—fog—is about to be overcome through experiment, says Col. Paul Henderson.

"Since radio engineers have found that radio waves can be directed through ether," Col. Henderson said, "experts have evolved a system of guiding pilots through fog and storms by means of radio signals."

"In a recent experiment one airplane had been guided through an intense fog from a New York field to one in Western Pennsylvania."

In order to demonstrate the advantages of using clean need special seed-cleaning machinery is to be taken through the province of Nova Scotia by the provincial Department of Natural Resources for the purpose of enabling farmers to clean their seed.

Jules Verne was born a hundred years ago, and the extravagant fancies that made him a popular writer of fiction have become the sober commonplaces of our everyday life.

The BABY

No mother in this enlightened age would give her baby something else did not know was perfectly harmless, especially when a few drops of plain Castoria will right a baby's stomach and almost any little ailment, such as colic, constipation, indigestion, and fever, too; it seems no time until everything is serene.

That's the Beauty of Castoria; its gentle influence seems just what is needed. It does all that castor oil might accomplish, without shock to the system. Without the evil taste, it's delicious! Being purely vegetable, you can give it as often as you wish, as a sign of colic; constipation; diarrhea; or need to add sound, natural sleep.

Just one warning: It is genuine Fletcher's Castoria that physicians recommend. Other preparations may be just as free from all doubtful drugs, but no child of this writer's is young to test them. Obedience to the pure and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold.
